

Acme Logistics — Q3 2025 Operations Report

1. Executive Summary

Acme Logistics closed Q3 2025 with two platform migrations and a reorganisation of the support function. As a company focused on freight and last-mile delivery, the leadership team tracked regional performance, headcount, pricing, service levels and vendor spend against the annual plan, all of which are detailed in the sections that follow.

The Search platform is owned by the Platform team; its on-call lead for the quarter is Jonas Meyer, who also chairs the weekly reliability review.

The finance team will publish a reconciliation to the statutory accounts after the audit.

2. Regional Performance

Regional results are reported in constant currency. Revenue reflects recognised subscription and services revenue; growth is quarter-over-quarter; churn is logo churn measured at renewal; NPS is the trailing 90-day relationship score.
