

Acme Logistics — Q1 2025 Operations Report

1. Executive Summary

This report summarises Acme Logistics's operating performance for Q1 2025. The business operates in freight and last-mile delivery, and the quarter was shaped by steady demand and margin pressure from freight costs. Figures are unaudited and reflect management accounts as of quarter close.

The Ingest platform is owned by the Growth team; its on-call lead for the quarter is Hana Kovač, who also chairs the weekly reliability review.

The finance team will publish a reconciliation to the statutory accounts after the audit.
