

Lumen Education — Q3 2025 Operations Report

1. Executive Summary

Lumen Education closed Q3 2025 with a disciplined cost programme and a pricing reset. As a company focused on vocational learning platforms, the leadership team tracked regional performance, headcount, pricing, service levels and vendor spend against the annual plan, all of which are detailed in the sections that follow.

The API Gateway platform is owned by the Developer Experience team; its on-call lead for the quarter is Leila Farahani, who also chairs the weekly reliability review.

Detailed departmental commentary is available in the appendix distributed to budget owners.
